

MSA Cairns® Fire and Rescue Helmets

From established firehouse favorites to next generation styles, there is a variety of Fire and Rescue helmet options available to you. MSA Cairns offers them all, each manufactured with your safety in mind and engineered to provide the highest level of protection.

TRADITIONAL

Original design paired with durability and performance.

- Offers comprehensive impact and thermal head protection system
- Unique Shell Release System (SRS) helps to ensure impact cap stays on your head if helmet shell is dislodged
- Defender® visor stows neatly and securely inside the helmet

MODERN

Lower profile design. Compact size to support EMS.

- Sleek, low-profile designs suit a variety of firefighting and rescue applications
- Provides superior thermal and impact protection when you need it most
- Through-color shells maintain color

LEATHER

Crafted, shaped, stitched, and trimmed by hand.

- Crafted by hand to achieve the high-quality generations of firefighters have trusted since 1836
- Leather shell uses only 100% top-grain steer hide permeated with a natural resin system
- Impact cap provides thermal and impact protection when you need it most

JET-STYLE

New game-changing jet-style. Integrated technology.

- Brimless design reduces snag hazards
- Easy-to-find adjustments so fit can be personalized to the individual
- Modular design allows quick disassembly for thorough inspection, care and maintenance

TECHNICAL RESCUE

Multi-purpose for Technical Rescue with modular, “click-in” accessories.

- Modular platform with a range of easily detachable accessories, including integrated communication system
- Compact design, lightweight materials, ride height adjustments and integrated modular accessories all contribute to optimized weight distribution
- Customizable options
