

MSA+ Device Protection for LUNAR™ Connected Device

for End Users

MSA+ Device Protection Plan provides a safeguard against unexpected events on your LUNAR™ Connected Device—giving you peace of mind, and helping to improve uptime and efficiency of your fleet.

Peace of Mind Against the Unexpected

With the LUNAR device we promise the rugged durability you expect from MSA, but the work day can include risks and exposures beyond the standard device warranty. MSA+ Device Protection provides peace of mind that your fleet is protected from even the most unexpected events.

Improve Uptime & Efficiency

Tracking down lost gear, verifying claims of theft, and submitting loss reports can contribute to hours of lost productivity. MSA+ Device Protection covers both loss and/or theft up to two occurrences per device. Plus, replacements for loss incidents come next day to help reduce costly downtime.

How Does it Work?

1. Within 30 days of signing up for a LUNAR subscription through MSA+, customers can add device protection to any subscription level. Pricing is per unit, per contract period.
2. Should an event occur while covered under a device protection plan, simply contact Customer Service. This will start the repair process or, in the case of theft or loss, will begin the replacement process immediately. **Customer Service: 1-800-672-2222**
