

TransAire® 5, TransAire 10, and Custom Air V Escape Respirators

Simple operation for swift exit.

• Safety Features

- Highly visible, abrasion resistant color coded carriers
- Single control for fast escape
- Lightweight and compact
- Withstands exposure of up to 160° F

• Low Cost of Ownership

- TransAire 5 and TransAire10 Escape Respirators have reduced parts and inventory costs
- Limited inspection and maintenance
- Online user training on MSA U

• Options & Flexibility

- Aluminum or carbon-fiber cylinders
- Custom Air® V offers high flow rate
- Single unit carrying case and single or dual wall mounting cases available

MSA's line of escape respirators are low-profile, lightweight, hooded escape respirators. They offer a choice of 5 or 10 minute cylinder with simple, one control operation for swift egress from immediately dangerous to life or health atmospheres.
