

MSA V-TEC® io1

Product Benefits

The **MSA V-TEC io1** is a new Fall Protection product, specifically designed for order pickers in warehouses and fulfillment centers. Its smart features help to improve worker safety and compliance when working at heights.

1. Real Time Compliance

The V-TEC io1's seat-belt alarm style system helps to improve safety compliance rates by continuing to sound, until workers are connected in the lift.

It beeps upon waking up every time — reminding workers to connect their PPE right away.

Additionally, the flashing red lights engage multiple senses so that the user is made aware of their connection status.

2. Improved Efficiency

By reminding workers to connect to their lift, the V-TEC io1 helps to reduce turnover rates and training costs that may result from a lack of compliance and also allowing Safety Managers to focus on other tasks.

WE KNOW WHAT'S AT STAKE.

MSA V-TEC[®] io1

How It Works

Product usage — Connection of Smart PFL hook to tagged harnesses makes a connection and alarm turns off.

Disconnection — A worker has numerous reasons to disconnect in their job. The V-TEC io1 starts alarming when a connection is not found.

Reminder — A first of its kind, the V-TEC io1 reminds the worker to reconnect with alarming lights and sounds.

V-TEC io1 Ordering Information

Part Number	Description
10213902	PFL, V-TEC, io1, 6 ft, 36CSN
10216248	PFL, V-TEC, io1, 10ft, 36CSN

Replacement Parts

Part Number	Description
10216580	Charging Kit, Replacement, V-TEC io1
10216611	Battery Pack, Portable, Replacement, io1
10216612	Cable, USB, Right Angle Replacement, io1
10216613	Converter, Power, Replacement, io1
10216614	Cable, USB C to USB A, Replacement, io1
