

MSA Cairns® Fronts

MSA Cairns
The Safety Company

Since the first leather fronts were introduced to the fire service in the 1800's, they have served as symbols of pride, worn to signify the unit and rank of the firefighter. Today, MSA Cairns offers 57 different leather front styles in various materials, colors and with personalized options firefighters love. MSA Cairns Leather Fronts are constructed of three layers of genuine tanned leather, available in a traditional or patent leather finish.
