

# Supreme® Pro Earmuffs

For Hunting and Shooting

**Supreme Pro Earmuffs** offer high-performance electronic circuits that compress sound, smoothly dropping damaging frequencies in microseconds. The robust, yet intricate, electronics allow conversations to occur—even when others are shooting. Additionally, the muffs amplify weak sounds, such as a hunting hound or distant game, improving your ability to track and hunt. This amplification is limited to a safe 82 dbA, so you are always protected from harmful noise levels. For additional features, such as a longer warranty and an IP67 rating, choose the **Supreme Pro-X** model.

*Because every life has a **purpose...***

# Supreme Pro-X and Supreme Pro Earmuffs

**Classification:** Supreme Pro-X

**Market(s):** Hunting and shooting

**Application(s):** High and/or impulse noise environments

- Features:**
- Five-year warranty on electronic components
  - IP67 rated (see page 3 for explanation of this rating)
  - Black or green cups; designed for both left and right-handed shooters
  - Foldable
  - Waterproof battery compartment
  - Positive, three-button volume and power control
  - Water/splash-proof, level-dependent microphone
  - Low battery warning and save functions (~600 hrs of battery life)
  - Audio Input (AUX) and 3.5 mm mono jack plug
  - Requires 2-AAA batteries (included)

**Standards:** Meets ANSI S3.19-1974 and CSA Class B Standards

*Ingress Protection Ratings (IP) classify the degree of protection against the intrusion of physical objects, such as dust and water, into mechanical casings that enclose electronics. The Supreme Pro-X has a rating of IP67.*

*The “6” (in “67”) identifies the level of protection from solid objects getting in the casing. The numbers for this designator run from 0 through 6, with 6 signifying the highest level of protection; “6” indicates that no ingress of dust occurs – the casing completely protects the electronics from even something as small as dust.*

*The “7” (in “67”) identifies the level of protection the casing provides against water ingress. The values run from 0 to 8. A “7” indicates that the product can be immersed in up to 1 meter (~3.28+ feet) for up to 30 minutes, and water will not enter the casing.*

- Classification:** Supreme Pro
- Market(s):** Hunting and shooting
- Application(s):** High and/or impulse noise environments
- Features:**
- Black cups; designed for both left and right-handed shooters
  - Foldable
  - Splash-proof, level dependent microphones
  - Low battery warning and save functions (~600 hrs of battery life)
  - Requires 2-AAA batteries (included)
  - Audio Input (AUX) and 3.5 mm mono jack plug
  - 1 year warranty on all electronic components
- Standards:** Meets ANSI S3.19-1974 and CSA Class B Standards
