

EVOTECH® Derrick Harness

Custom Product Launch

Derrick/Monkey Board/Basket Work

The derrickhand/worker is exposed to great risk with regard to falls occurring on a drilling rig. Most related hazards that workers encounter involve working on the monkey board. Accessing the derrick ladder to the board or basket exposes these workers to a fall; 100% tie-off is critical to help ensure worker safety.

Derrick harnesses provide an 18" extension to the dorsal D-ring and a D-ring at the back of the derrick belt for monkey board work, necessary for fall restraint when leaning over the tripping pipe.

*Because every life has a **purpose...***

EVOTECH Derrick Harness Features

- 18" D-ring extension
- Positioning D-ring on back pad
- Metal or nylon saddle

EVOTECH Derrick Harness
with Nylon Saddle

EVOTECH Derrick Harness
with Metal Saddle
